They have a way out at Grinnell of catching a fellow anyway a Mexican was arrested for beating his wife and when the said wife did not appear in court to testify against her gentle spouse, the officers ordered the said Mexican arraigned on a charge of disturbing the peace. They found him guilty and stuck him with a fine.

Thus our personal liberties are trampled upon which reminds us that if this thing of "personal liberties" were carried out to its extreme there would be no laws or no restraint upon the actions of anyone.

There don't seem to be any real estate men at Gove. A gentleman called at this office Saturday and wanted the address of some real estate dealer at Gove City. We looked the Gove Republican-Gazette, the only newspaper in that city, through from first page to last and in all the advertising and local readers there was no advertising for a real estate man. It looks like that might be a good location for a rustler in the business.

Another test oil well is to be put down in western Kansas. A company is at work at Wilson. The local capitalists are to put up one-half the costs of the first well. We still contend that the best location in western Kansas is in Trego county.

If a strange lady comes to your home or place of business and asks you to cash a check signed by "Mary Willou", don't cash it for Mary Willou forever after and her name is of the same kind as John Urstung and U-rstung. Mary passed a few of her

checks at Salina last week.

Editor Young of the Oakley Graphic is spending a few weeks in the mountains of Colorado. He seems to be enjoying the trip, judging from his letters which are published in his paper, but the complete enjoyment of the trip is marred in his effort to locate the highest mountain peak in that state. He has found it in a dozen different places.

The county's property will thus be protected from the elements as well as from irresponsible users or thieves.

The city administration at Hill City has decided to collect poll tax from male citizens. The street fund for the city will be greatly expanded by this method. WaKeeney streets certainly need that three dollars per man expended upon them.
